

Dmitry MASKALIOV

Web Developer

Enthusiastic and meticulous web developer with expertise in HTML and CSS, as well as third-party frameworks/libraries such as React, Next.js, and jQuery. With over 3 years of experience, I am seeking new challenges. I aim to leverage my technical skills and expertise to add value to employers and contribute to project success.

Work experience

Web developer

[Freelance](#) Toulouse / Since October 2023

- Converted Figma designs into responsive, cross-browser websites
- Built and maintained UIs with HTML, CSS, JavaScript, and TypeScript
- Developed interactive components and complex logic in React.js
- Implemented SSR and routing with Next.js
- Optimized performance (minification, lazy loading, image optimization)
- Integrated REST APIs and GraphQL for dynamic data
- Ensured full responsiveness across devices and browsers
- Scaled projects using modern dev tools (Git, ESLint, Prettier, Webpack/Vite)

Wordpress developer

[Spheris](#) Néoules / From November 2022 to August 2023

- Built responsive landing pages with HTML, CSS, JS, PHP
- Integrated Figma designs into WordPress
- Managed WP sites: themes, plugins, security, compatibility
- Debugged/customized PHP in WP themes
- Customized templates for unique designs
- Optimized performance (images, caching, CSS/JS)
- Set up security plugins and firewalls
- Integrated third-party APIs

Personal projects

[Personal projects](#) / Since November 2021

- Developing landing pages and multi-page websites.
- Website design using Wix, Tilda, and WordPress.
- Building e-commerce sites using Shopify.

Front end developer training project

[Booki](#) / From August 2021 to October 2021

- Building a responsive website adaptable to all screen sizes.
- Slicing, assembling, and integrating graphical mockups into HTML5 and CSS.
- Adding audio and video content using HTML5.
- Animating web pages with CSS3.
- Creating maintainable websites with error handling and exception management.

Education
